Eclipse Chemicals

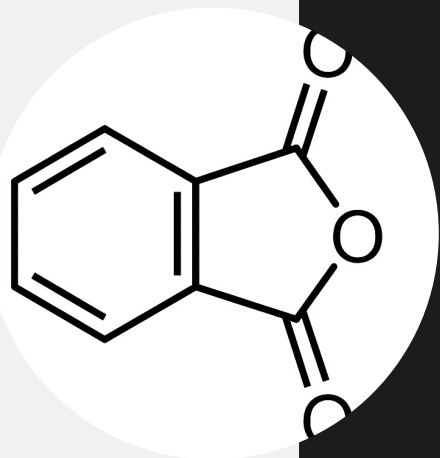

*"We are specialized in Phthalic Anhydride"*

About Us

Eclipse Chemicals is chemical Trading company aims to be a market leader in trading and distribution of Phthalic Anhydride. We are connected with wide rage of Phthalic Anhydride manufacturers all over the world and bulding costomer base in Middle East, Far east, Europe & USA.

We are an organization that prides itself on its adherence to international standards and safety norms. We are committed to integrity in our business transactions and dealings with customers and suppliers. This extends to the fulfillment of our personal responsibilities of complying strictly with the law (national and international) and policies and regulations that Eclipse is subject to and of believing in the spirit of the law.
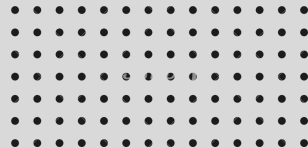

Phthalic Anyhride

$C_6H_4(CO)_2O$

Phthalic anhydride's main end-use markets include phthalate plasticizers, polyester resins, and alkyd resins for coating applications. Dye intermediates and pigments, polyester polyols, and flame retardants are among the other applications.

Our Phthalic Anhydride is produce from Naphthalene. Which is widely acceptable and that comes in Flakes / power form.

Phthalic anhydride is a chemical intermediate that reacts quickly and produces a wide range of products with a variety of performance characteristics at a low cost.

Applications of PA

Building and Construction / Agrochemical / Chemical Industry / Coatings / Electronic and Electrical / Flavors and Fragrances / Home and Domestic Applications / Industrial Sector / Marine / Solvents

Specification of PA

CERTIFICATE OF ANALYSIS			
PRODUCT: PHTHALIC ANHYDRIDE			
ITEMS	SPECIFICATION	Unit	RESULTS
Appearance	White crystal Flakes		Complied
Purity	≥99.5	Wt%	99.90
Free Acid	≤0.2	Wt%	0.015
Solidification point	≥130.5	°C	130.8
Molten Color	≤20	Hazen	10
Heat Color	≤50	Hazen	25
Sulfuric Acid Color	≤40	Hazen	20
